

## **BAVM 2009: Call for Participation**

### **Bay Area Vision Meeting (BAVM) 2009: Image and Video Understanding**

**Aug 14th, 2009. 1:30-6:30pm**

**Stanford University**

Poster & Demo Registration Deadline: July 20th, 2009

Attendance Registration Deadline: July 31st, 2009

Website: <http://vision.stanford.edu/bavm2009>

#### **Invitation**

The Bay Area Vision Meeting (BAVM) is an informal gathering (without a printed proceedings) of academic and industry researchers with interest in computer vision and related areas. The goal is to build community among vision researchers in the San Francisco Bay Area, however, visitors and travelers from afar are also encouraged to attend and present. New research, previews of work to be shown at upcoming vision conferences, reviews of not-well-publicized work, and descriptions of "work in progress" are all welcome.

#### **Topic and Format**

The topic of BAVM 2009 is ***Image and Video Understanding***. This half-day meeting will consist of keynote speeches by invited speakers as well as demos and poster sessions. We will host posters and demos, and a few selected demos will be highlighted on a Demo Spotlight (Please refer to the website for demo and poster details.). The meeting is open to all researchers, faculty and students.

#### **Important Dates**

Poster & Demo Registration: July 20th, 2009.

Attendance Registration: July 31st, 2009.

Meeting: 1:30-6:30pm, August 14th, 2009.

#### **Organizers**

Prof. Li Fei-Fei (Stanford University)

Juan Carlos Niebles (Princeton/Stanford University)
